Summary

Computer Science graduate and AI Engineering Intern with 1.5+ years of hands-on experience building **production LLM systems, agentic workflows**, and **full-stack applications**. Delivered real-time AI infrastructure handling **10,000+ daily requests** at GEP Worldwide. Proficient in LangGraph, NestJS, RAG pipelines, and React; seeking a full-time **Software / AI Engineering** role.

Technical Skills

Languages: Java, JavaScript (ES6+), TypeScript, SQL
Backend: Node.js, NestJS, Express.js, REST APIs, WebSockets, Server-Sent Events (SSE), JWT, Microservices
Frontend: React, Next.js, Tailwind CSS, React Flow, Zustand
Databases: MongoDB, MySQL, Redis, Pinecone (vector DB)
AI & Agents: LangChain.js, LangGraph.js, MCP, RAG, OpenAI APIs, Prompt Engineering, Guardrails
DevOps & Tools: Git, GitHub, Docker, CI/CD, Postman, Langfuse, VS Code

Experience

AI Engineering Intern

Nov 2025 – Apr 2026

GEP Worldwide

Hyderabad, India

- Architected **SSE-based streaming** endpoints in Node.js and NestJS using the **AG-UI event protocol** to deliver token-by-token LLM responses and tool-call updates to React clients in real time, supporting **100+ users** and **10,000+ daily requests** in production
- Engineered an **agentic workflow runtime** that compiles declarative **workflow JSON** into executable **LangGraph StateGraph**, supporting 10+ node types (Agent, LLM, Tool, Rule, Guardrail, Human Input) for configurable multi-agent systems
- Designed and deployed **production-grade AI agents** using supervisor, reflection, and planning patterns to automate complex enterprise workflows, serving **100+ active users**

Full Stack & GenAI Trainee

Jan 2025 – Oct 2025

Gradiious

Hyderabad, India

- Developed **5+ full-stack applications** using React, Node.js, Express.js, MongoDB, and MySQL with JWT authentication, RBAC, CRUD operations, and deployment workflows
- Integrated **LangChain.js**, **RAG pipelines**, and **OpenAI APIs** into full-stack projects; built session management and database layers across MongoDB and MySQL

Vice-President

Sep 2023 – May 2024

Board of Science and Technology, CMR College of Engineering and Technology

Hyderabad, India

- Led a **12-member student board**; organized **8+ technical events** including hackathons and coding workshops with **500+ participants**, improving student engagement by 30%

Projects

AI Document Assistant | React, Node.js, LangChain, OpenAI, Pinecone

Jun – Sep 2025

- Architected a **RAG-based document assistant** with PDF ingestion, embedding generation, and **Pinecone** vector storage; delivered **source-cited, multi-turn** conversational answers across **50+ documents**

StudentConnect Platform | React, Express.js, MongoDB

Feb – Apr 2025

- Built a student opportunity platform with **JWT auth**, admin dashboard, and personalized recommendations; designed **REST APIs** with filtering and pagination for **100+ listings** (jobs, internships, scholarships)

Courier Tracking Application | React, Node.js, MySQL, WebSockets

Sep – Dec 2024

- Delivered a real-time courier management system with **RBAC**, **15+ REST APIs**, five-stage shipment tracking, and **live map-based location sharing** via WebSockets

Education

B.Tech in Computer Science and Technology – CGPA: 8.2/10

Jun 2026

CMR College of Engineering and Technology

Hyderabad, India

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks

Intermediate Education (MPC) – 97%

May 2021

Sri Chaitanya Junior College

Hyderabad, India

Certifications

Full Stack Development & GenAI, Gradiious (2025)
